

Saving energy = saving money!

Make the witch to LED

With Hobsons Bay City Council's Light\$mart program there's never been a better time to switch to LEDs!

1. Multiple subsidies available for businesses in Hobsons Bay:

-  With Light\$mart you get access to up to **\$5000 of subsidies***
-  Victorian Energy Efficiency Target certificates (up to 20% off purchase)
-  A further 5% discount on all LED purchases

2. Through the Light\$mart program, Cherry Energy Solutions is offering:

-  A **free lighting audit** for your business
-  An **LED lighting upgrade proposal** including estimated cost and energy savings, payback period and amount of carbon emissions saved.
-  **No upfront payments** with funding from the Sustainable Melbourne Fund

See reverse for program details.

FUND**

*Maximum 10% of the total LED project value, up to \$5000.

Lighting contributes significantly to electricity bills.

If your business is part of Hobsons Bay City Council and you want to **SAVE MONEY** on electricity bills, then the Hobsons Bay Light\$mart program can help you achieve this.

Program partner:

The Hobsons Bay City Council Light\$mart Program offers:

-  A way to help you and your business save money on energy bills and reduce carbon emissions.
-  An LED lighting upgrade proposal including estimated cost and energy savings, payback period and amount of carbon emissions saved.
-  A subsidy to help your business become more energy efficient
-  Partnership with a leading Australian LED lighting specialist that has more than 6 years experience designing and manufacturing leading quality LED lights. Cherry Energy Solutions is a 100% Australian owned and run company.

We have completed over 8,000 installations Australia-wide. Some of our customers include:

Why LEDs?

LED Lights	Halogen/Fluorescent Lights
Last more than 50,000 hours	Last between 10,000 and 20,000 hours
Energy efficient – Use up to 80% less electricity. Low energy consumption	High energy consumption
Decreased maintenance costs due to longer life span	Increased maintenance costs due to constant replacement
Run on temperatures lower than 80° C – Reduces fire risks and cooling costs	Run on temperatures up to 200° C
