

# Saving energy = saving money!

# Make the witch to LED

With Cherry LED and Positive Charge there's never been a better time to switch to LEDs!

## 1. Multiple subsidies available for businesses in the City of Moreland:

-  With Positive Charge you get access to up to \$5000 of subsidies\*
-  Victorian Energy Efficiency Target certificates (up to 20% off purchase)

A further 5% discount on all LED purchases

## 2. Access to special Positive Charge offers:

-  Positive Charge is here to help you and your business save money on energy bills and reduce carbon emissions
-  No upfront payment with funding from the Sustainable Melbourne Fund

See reverse for program details.

Program partners:

Proudly supported by:

\*Maximum 10% of the total LED project value, up to \$5000.

Lighting contributes significantly to businesses' electricity bills. If your business is part of the City of Moreland and you want to **SAVE MONEY** on electricity bills, then Positive Charge can help you achieve this.

## Through Positive Charge Cherry LED is offering:

-  A free lighting audit for your business
-  An LED lighting upgrade proposal including estimated cost and energy savings, payback period, and carbon emission reductions
-  A subsidy to help your business become more energy efficient

## Who we are:

A leading Australian LED lighting specialist with more than 6 years of experience designing and manufacturing leading quality LED lights. Cherry LED is a 100% Australian owned and run company.

Some of our customers include: Woolworths, Leighton Holdings, Camberwell Grammar School, Dennis Family Homes, Dan Properties Group and Pemara Printing.

## Why LEDs?

LED Lights	Halogen/Fluorescent Lights
Last more than 50,000 hours	Last between 10 and 20 thousand hours
Energy efficient – Use up to 80% less electricity. Low energy consumption	High energy consumption
Decreased maintenance costs due to longer life span	Increased maintenance costs due to constant replacement
Run on temperatures lower than 80° C – Reduces fire risks and cooling costs	Run on temperatures up to 200° C
